## IN THE NEWS... Oct. 14<sup>th</sup>, If James Bond had a boat....

Photos have just been released of Aston Martin's new AM37. Other than the finest leather, teak, polished metal, and carbon fiber, this boat comes standard with some of the most sophisticated tech on the water. This 37' day cruiser comes with a 520HP option and seats up to 8. Don't let 1.26m BP price tag fool you, machine guns and smoke screen are extra.

## Oct. 14<sup>th</sup>, Cobalt green lit with lawsuit...

On the heels of industry wide co-operation, Cobalt was green lit by the US Patent and Trademark Office today to continue a year long lawsuit filed against Brunswick/SeaRay for patent infringement regarding the submersible swim deck, seen on several Sundeck models since 2011. Cobalt reps commented by saying they are simply trying to protect intellectual property. Brunswick has yet to respond to the ruling.

## MARINA SPOTLIGHT SLIP A 27

**PRETTY MUCH THE PERFECT SPOT FOR COLLEGE FOOTBALL**

## Well Anchored.. *The Value of Freedom.*

"These are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but he that stands it now, deserves the love and thanks of man and woman. Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly: it is dearness only that gives everything its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as freedom should not be highly rated." "

- Thomas Paine

## WHAT'S HAPPENING...

Who knows, maybe this year even the Harbormaster will dress up. See you there! Big THANKS to all of our tenants and guest who came out this year. With all the boating weather, 2016 was truly a great season. Hope to see you all next year.
